Emergency Room (Poison Control) .....	646-8104
Poison Control Telephone Advice .....	1-800-222-1222

# Introduction

*Hafa Adai!*

The University of Guam Center for Excellence in Developmental Disabilities Education, Research, & Service (Guam CEDDERS) is proud to present the **2010 Guam Directory of Services & Resources for Individuals with Disabilities**.

This Directory is a comprehensive resource of services and information for individuals with disabilities in Guam. Our goal in producing this directory is to provide a guide for individuals with disabilities and their families to easily find and connect with service providers. The Directory includes comprehensive listings and information in the areas of Medical & Health, Education & Training, Individual & Family Supports, Employment, and Housing & Transportation. We have also included a section on Emergency Preparedness with information on how to assemble a Disaster Supply Kit, as well as detailed safety tips for typhoon, earthquake, hazardous materials, and tsunami readiness.

Some information included in this Directory was gathered from the *GuamGetCare.org* website, an online, island-wide database of services for older adults and individuals with disabilities and the *2009 Nene Directory*, a directory of Guam's service providers for children birth to five years old. Guam CEDDERS would like to thank the staff of *GuamGetCare.org* and the collaborating agencies that produced the *2009 Nene Directory*.

Because directory information quickly becomes outdated, we hope to update the *Guam Directory of Services & Resources for Individuals with Disabilities* annually. We welcome your additions and suggestions, so should you find errors or have information on new resources, please feel free to contact us at the numbers below, so that we can have as up-to-date information as possible.

We would like to thank all those who have contributed to the *2010 Guam Directory of Services & Resources for Individuals with Disabilities*. We hope the Directory will be a valuable resource for our community.

Si Yu'os Ma'åse'

**University of Guam CEDDERS**

# EMERGENCY PREPAREDNESS

*Pripâra Hao Pa'gu.*

Emergency situations can happen at any time, and at any place. Whether natural or man-made, these emergency situations can result in damage to property and endanger the health and safety of the general public.

Guam regularly experiences natural disasters such as typhoons and earthquakes. Fires, flooding, and disasters from hazardous materials are other occurrences that may endanger you and your property.

*Pripâra hao.*

*Pripâra hao* is a Chamorro phrase which means "get ready." Preparedness is the key to ensuring the safety and well-being of individuals, as well as the protection of property, during and after any type of disaster.

Preparedness planning is especially important for individuals with disabilities and special needs, who may require extra time and contingency plans to ensure their safety and well-being. By planning ahead, you will be able to act timely and ensure the safety of you and your family.

## Prepare Basic Supplies

---

In the event of an emergency, you should be prepared to be self-sufficient for up to 7 days. Preparing and maintaining an emergency supply of essential items can help you ensure that you have adequate supplies to meet you and your family's needs until help arrives.

### Basic emergency supplies include:

- One week supply of canned and dried food items
- Drinking water – at least one gallon per person per day
- Flashlights and extra batteries
- Battery operated radio
- First Aid kit
- Whistle
- 10 - 30 day supply of medications
- Toilet tissue and personal hygiene supplies
- Water for flushing toilet in the event water is shut off
- Trash bags, gloves, duct tape or masking tape, and plastic containers for storing items
- Chlorine bleach for sanitizing
- Propane stove and extra propane gas

## Make a Plan

---

Emergency preparedness also means making a plan.

### Your plan should:

- Designate a place to meet if you and your family are separated from each other.
- Pick a primary and alternate contact number for you and your family to call if you are separated from each other.
- Establish a buddy system with other family members, friends, neighbors, or co-workers, and develop a plan on how you can help each other.
- Share your plan and your emergency contact list with members in your buddy system.
- Make a plan on how to secure your house in case you are not home or you are otherwise unable to secure your home.
- Identify another place to go to in case you need to evacuate.
- Establish your primary and alternate evacuation routes.
- If you use mobility aids, plan on how to take them with you and how to store extra aids at your alternate shelter, if possible.

## Prepare a GO-KIT (Disaster Supply Kit)

---

You should prepare a bag with your most essential items which you can grab if an emergency situation occurs, and you need to evacuate right away. Be sure the bag is not too heavy for you or someone to carry.

### Your emergency go-kit should include:

- List of contact numbers
- Dried foods and bottled water
- Flashlight and extra batteries
- Whistle
- Small portable radio and extra batteries
- Basic toiletries and sanitary items
- Medications
- Important documents, including medical information

### It is a good idea to:

- Place your bag near an entry or exit way so it can easily be carried out.
- Put reminder notices in your calendar or appointment book to check and replace items in your bag at least every 6 months.
- Let people in your buddy system know where your GO-KIT is located.

---

**Yes!** People with disabilities need to be more self-reliant in emergencies. Now, more than ever, individuals with disabilities need to take control of their own planning and preparation for the onset of possible emergencies.

Registering with your village mayor is very important if you need special supports in times of disaster. Advise your mayor of any special transportation/mobility needs, medical needs, or power needs for specialized equipment. Also, register with Guam Power Authority for any power lifeline requirements to keep critical medical equipment running.

You can take small steps every day to become better able to survive an emergency. Get informed, identify your resources, make a plan and create your GO-KIT.

If preparedness materials are not available in accessible format, make a request to the agency. The Americans with Disabilities Act entitles you to this accommodation.

# TYPHOON SAFETY TIPS

## GUAM TYPHOON CONDITIONS

**Condition of Readiness IV:** Guam is always in Condition IV.

A typhoon may develop and hit the island within 72 hours.

**Condition of Readiness III:** A typhoon may possibly hit the island within 48 hours.

**Condition of Readiness II:** A typhoon is expected to hit the island within 24 hours.

**Condition of Readiness I:** A typhoon is expected to hit the island within 12 hours.

“During Condition of Readiness I, only emergency traffic should be on the roads.

Closure of public transportation will begin with Condition of Readiness I.”

### Indoor Preparations

- Secure all important documents in a zip lock bag.
- Cover all beds and other items with plastic to protect from water seeping in around windows/doors.
- Pack matches (consider using child-proof lighters), toilet paper and other things you must keep dry in a zip lock bag.
- Store large items in closets.
- Roll carpets up and away from doors, arrange flashlights, lanterns, candles, and lighters in places where they can be easily found.
- When, or if the power goes out, unplug all appliances to prevent damage from a power surge when power is restored.
- Ensure all cooking stove controls are in the off position.

### Outside Preparations

- Tie down tin-covered roof extensions.
- Secure all loose items such as garbage can lids, empty drums, gardening tools, and any other materials that could become airborne during high winds.
- Take down all lawn umbrellas and temporary canopies.
- Secure plywood or typhoon shutters on windows and have extra plywood/shutters on hand; wind-thrown debris and wind pressure can break windows.
- Secure or waterproof window air conditioners.
- Fuel your car; gas stations may be closed after the storm.
- Ensure the main gas valve is shut off.
- Stay indoors until Condition Four is declared.

# TYPHOON SAFETY TIPS

## Evacuation Preparations

- Listen to/Watch the local media for news & updates.
- Cooperate with local officials directing evacuation routes.
- If you do not have any transportation, make arrangements with relatives, friends, or your local village Mayor's Office. Wear protective clothing and sturdy shoes.
- Gather water, food, clothing, and emergency supplies.
- Secure your house by placing boards or shutters on all windows/doors.
- Unplug appliances.
- Turn off gas valves.
- Turn off the main water valve.
- Follow recommended evacuation routes.
- Don't take shortcuts! They may be blocked.
- If you use public transportation, plan ahead. Service discontinues with the setting of Condition I. Make sure you have time to return to shelter.

## Post Typhoon Preparations

- Remain in your shelter, until informed by local authorities that it is safe to leave.
- Keep tuned to local radio or television stations for advice and instructions from the local government.
- Stay away from disaster areas. Sightseers should not interrupt crucial rescue and recovery work.
- Drive only when necessary and be especially careful. Streets will be filled with debris and downed lines/trees.
- Avoid loose or dangling power wires and report them immediately to local officials.
- Report broken sewer or water mains.
- Prevent fires. Local water pressure may be low, making fire fighting more difficult.
- Check refrigerated food for spoilage.
- Stay away from river banks until all potential flooding has passed.

# EARTHQUAKE SAFETY TIPS

## Preparations

- Repair defective electrical wiring, gas leaks, and inflexible utility connections.
- Bolt down water heaters and propane gas tanks.
- Know where and how to shut off electricity, gas, and water at main switches/valves.
- Place large or heavy objects on lower shelves.
- Securely fasten shelves to walls; brace or anchor high or top-heavy objects.
- Store bottled food, glass, china and other breakables on lower shelves.
- Anchor overhead lighting fixtures solidly in place.
- Check and repair deep plaster cracks in ceilings and foundations.
- Hold occasional earthquake drills so each member of your family knows what to do.
- Develop a family plan for reuniting after an earthquake.
- Review insurance policy to determine coverage for earthquake damage.

## What to do

During an earthquake, keep calm... panic can kill!

### If you are indoors:

- Get under a sturdy piece of furniture (desk or table) or doorway.
- Stay clear of windows and exterior doors.

### If you are outside:

- Get to an open area/space away from buildings, trees, utility wires/poles.

### If you are in the car:

- Stop the car but stay inside.
- Do not stop on a bridge, under a tree, utility wires/poles, or a sign.

### In bed:

- Use pillow or blanket to protect head.

### Standing:

- Drop, sit down, cover head/neck.

### Using wheelchair:

- Go into doorway, cover head/neck.

### Trapped:

- Cover mouth, tap on wall/pipe.

# EARTHQUAKE SAFETY TIPS

## After the earthquake:

- Stay vigilant!
- Do not enter partially collapsed or damaged buildings.
- Report structural damage to local officials.
- Avoid exposed electrical wiring (indoors or outdoors).
- Do not use candles, matches, or open flames indoors because of possible gas leaks.
- Check home for any possible fire or fire hazards.
- Turn off main gas valve if leak is suspected.
- Turn off water main valve if you see that water pipes are damaged.
- Shut off electrical power at the control box if there is any damage to your house wiring.
- Only use the phone for emergencies (injuries, fire, trapped people).
- Check with your neighbors to see if they need assistance.
- Be prepared for aftershocks.
- Stay off the streets; if you must travel, be on the lookout for downed tree/utility poles and weakened bridges.
- Locate/have ready GO-KIT (Disaster Supply Kit).
- Cooperate with public safety officials.

# HAZARDOUS MATERIALS INCIDENT SAFETY TIPS

---

## Shelter in Place

- If outdoors, go inside your home or building.
- Protect yourself inside, close all windows and doors.
- Tape cracks for extra protection.
- Close all cooling vents or ventilation systems.
- Use the above systems for internal recirculation of air only.
- Move to central interior area of home or building.
- Stay inside and monitor radio and television announcements for official messages.

## Evacuation

- Immediately move to a location designated by public officials when directed.
- Take your family GO-KIT (Disaster Supply Kit).
- Take only essential items.
- Shut off water, gas, and electricity to your home.
- Do not go to your children's school, unless directed by public officials, who will coordinate special care for your children.

- Leave a sign on your door stating that your house has been evacuated.
- Keep your car windows and vents closed.

## Protect Your Breathing

- Cover your mouth and nose with a damp cloth.
- Take frequent shallow breaths.
- Stay calm-do not panic.

## Suspected Substances and Packages

If you suspect a letter or package that you have opened may contain questionable or hazardous materials, take the following actions:

- Cover suspected packages or substances with cloth or plastic.
- Evacuate immediate area.
- Wash your hands with soap and water.
- Call 911 Emergency.
- Do not further handle letter or package.

# HAZARDOUS MATERIALS INCIDENT SAFETY TIPS

---

## Spills & Contamination

- Learn about hazardous materials in your area.
- Alert the authorities. Call 911.
- Move away from a release or spill.
- Stay away from contaminated individuals.
- Follow water and food usage instructions.
- If direct contact, follow directions for decontamination of yourself & auxiliary aids like walkers & wheelchairs.
- See doctor for unusual symptoms.
- Remove clothing and take a shower.

# TSUNAMI SAFETY TIPS

## What to do

- If you are in school, follow the advice of teachers and other school personnel.
- If you are at home, ensure your entire family is aware of the warning.
- Evacuate your house if you live in a low-lying area.
- Follow the advice of local emergency and law enforcement authorities.
- If you are at the beach, and you feel the earth shake, move immediately to higher ground; DO NOT wait for the tsunami warning to be announced.
- Stay away from rivers that lead to the ocean.
- Do not go to the shoreline to watch for a tsunami; when you can see the wave, it is too late to escape.
- If you are on a boat, do not return to port; tsunamis can cause rapid changes in water level and unpredictable dangerous currents in harbors/ports.
- Stay away from the area until local authorities say it is safe.

- **Please note:** If the roads leading to your staging area are blocked with fallen debris or power poles, seek higher ground within your village.

These recommendations and suggestions are intended to improve both natural and man-made disaster preparedness, response, and recovery. The contents are meant to improve your readiness capability but do not guarantee the safety of any individual, structure, or facility in a disaster situation. Neither Guam CEDDERS, the United States, the Island of Guam nor the Office of Civil Defense assumes liability for any injury, death, or property damage that results from any disasters.

# Self-Advocacy:

## The Art of Speaking Up for Yourself

**Do you know your individual rights? Can you identify the services that you need?**

In two weekends, you can learn about your rights and how to be assertive in requesting the services you need. Become connected with a network of other successful self advocates.

**Take Action...Ask about Self-Advocacy training for individuals with disabilities and their families today!**

### Self-Advocacy is...

- Speaking up for your rights
- Doing your own thing
- Telling people what you want
- Sharing problems
- Making choices
- Taking responsibility for your own life
- Enjoying the same rights as everyone else
- Getting rid of disrespectful words
- Being part of a support group
- Not letting others run your life
- Coming and going when you like

# PROJECT TINITUHON

"The BEGINNING"

**The Foundation for Lifelong Success  
for your child BEGINS with *YOU!***

## **Social Emotional Development/ Mental Health**

Holding and talking with your baby are the first steps to building a positive relationship with your child.

## **Access to Universal Healthcare/ Medical Homes**

Regular and consistent medical care is important for positive growth and development.

## **Early Care and Education/Child Care**

Quality childcare provides positive learning opportunities for healthy growth and development.

## **Family Support/Parent Education**

Be a positive role model! You are your child's first, most consistent, and enduring teacher.

For more information on  
**PROJECT TINITUHON,**  
contact **Elaine Eclavea**  
at 735-2466 or email

# Milestones

## of Normal Hearing and Speech Development

Early identification and assessment are the first steps  
in helping a child with a hearing impairment.

### 0 - 4 Months

- Stops movement or quiets in response to speech.
- Startles to loud sounds.
- Moves eyes toward sound source.
- Arouses from light sleep to sudden loud noises.

### 9 - 12 Months

- Acquires first true word.
- Imitates sounds.
- Looks at a common object when named.
- Responds to music.
- Understands simple commands.

### 4 - 7 Months

- Begins head turn toward sounds and voices out of sight (4 months) and turns head directly toward the sound source (7 months)
- Smiles in response to speech.
- Looks in response to own name.
- Babbling begins.

### 13 - 18 Months

- Uses sentence-like intonation.
- Perceives emotions of others.
- Uses 3 - 20 words.
- Uses all vowels and consonants in jargon.

### 7 - 9 Months

- Turns to find a sound source out of sight.
- Gurgles or coos to sounds out of sight.
- Uses intonation patterns heard in speech.
- Comprehends "No."
- Babbles in multiple syllables.

### 19 - 24 Months

- Uses more words than just jargon.
- Raises intonation at end of phrase to ask question.
- Comprehends about 300 words.
- Uses about 50 words.
- Produces animal sounds.
- Combines 2 words into phrases.
- Listens to simple stories.

# GUAM'S FAMILY SUPPORT 360° FOR MILITARY FAMILIES

## **Guam's Family Support 360° Project for Military Families**

aims to serve as a guide to help family members identify and access military and Guam community supports to help meet these challenges and help them maximize the potential of their child with disabilities birth to 25 years old.

## **Program Features**

- A One-Stop Family Support 360° office that is Americans with Disabilities Act (ADA) accessible, centrally located at the University of Guam campus in Mangilao
- Experienced and trained peer-to-peer support navigators who can assist families in connecting with various military and Guam community resources
- Multi-agency & family-centered Advisory Council
- Parent and sibling workshops
- Home visits

A Project of the University of Guam  
Center for Excellence in Developmental Disabilities  
Education, Research, & Service (Guam CEDDERS)

# Enhance Your Quality Of Life Through Assistive Technology!

## GSAT Services/Programs

### GSAT Demonstration & Resource Center

GSAT is a center, available to the community, where visitors can visit, learn, and make an informative decision in selecting the best AT to meet their needs.

- AT Device Demonstrations
- Equipment Displays
- Annual Assistive Technology Conference & Fair

### AT Device 30-day Lending Library

The GSAT center allows the community an opportunity to test and actually try any device available at the center. In addition, items can be taken home, to school, or even to the workplace for a 30-day period, free of charge.

- Information and Referral
- Training on AT Devices & Software
- Database Library of Products & Services

### AT Recycling & Equipment Exchange

GSAT, with the help of community partners, attempts to repair and refurbish old or used AT devices which are later available to the community for purchase.

- Collection of used AT equipment
- Listing of AT devices for sale or exchange

### Alternative Funding Programs

GSAT's loan programs provide the community a means to purchase AT or pursue home-based employment.

- Low interest rates and flexible payment terms
- No credit history required

### HOUSING ASSISTANCE

#### ALEE SHELTER I & II

(A program of Catholic Social Service)

**Hours of Operation:**

24 hours. 7 days a week.

**Tel:** 649-2533**24-Hour Hotline:** 648-4673**Fax:** 646-8486**Website:** [www.catholicsocialservices.net](http://www.catholicsocialservices.net)

**Description:** The program provides 24-hour crisis intervention and emergency/protective care for victims of family violence.

Alee I, a home for abused spouses, was established to help victims of domestic violence. Women and their children are admitted to the shelter for a short term to be in a safe and comfortable environment. Guidance, counseling, and family placement are part of the future planning for the spouse.

Alee II protects children from child abuse and neglect. The program provides 24-hour foster care residential placement. Children from newborn to 17 year old placed at the shelter are under the authority of Child Protective Services (CPS). Alee II social workers coordinate with CPS to ensure that the child is cared for in a safe and comfortable environment, and free from abuse or neglect. Other services include transportation, 24-hour care, supervision and recreational activities.

### **CATHOLIC SOCIAL SERVICES (CSS)**

**Address:**

406 Mai Mai Road  
Chalan Pago, GU 96910

**Hours of Operation:**

24 hours. 7 days a week.

**Hotline:** 475-7100

**Tel:** 475-7101

**Fax:** 477-3117

**Website:** www.sanctuaryguam.org

**Description:** This is a long-term program where residents strive to obtain essential life skills needed for independent living. TLP is for homeless teens who cannot return home; who are aging out of the foster care system and require assistance transitioning to independent living.

# RIGHTS & RESPONSIBILITIES OF TRANSIT CUSTOMERS WITH DISABILITIES

Individuals with disabilities have both rights and responsibilities when they use public transportation. You have the same rights of access as citizens without disabilities. If you cannot use the fixed-route system, you can apply for Paratransit service. There are also basic responsibilities while using this service. You must qualify to ride the paratransit and use fixed-route service whenever possible.

## RIGHTS

- Use any public bus.
- Apply for Paratransit if fixed route cannot be used.
- Receive information in accessible and useable form.
- Use a wheelchair or mobility aide meeting the ADA definition.
- Find all lifts in good working order.
- Have stops and major intersections announced by the driver.
- Travel with a personal assistant if qualified.
- Travel with a service animal.
- Receive courteous, respectful service and have ample time to get on and off the bus.
- File a complaint if these rights are violated.

## RESPONSIBILITIES

- Use fixed-route service whenever possible.
- Seek travel training or personal instruction.
- Plan ahead and prepare to pay exact fare.
- Know if your mobility device meets ADA specifications.
- Comply with regulations to secure your wheelchair or mobility device.
- Keep your service animal under control at all times.
- Signal or ask the driver to stop at your designated stop.
- Be prepared and available to board during the specified pick-up timeframe.
- Treat drivers and other passengers with courtesy and respect at all times.
- Know your transit policies and follow them. Never take more parcels than will fit in your seating space.
